

Gemma Antolín Cubero

master degree architect

EDUCATION

1997-1999 **Ph.D Courses in Architecture**
Architectonic and Urban regeneration
Higher Technical College of Architecture
Seville, Spain

1989-1996 **Architecture master degree (EQF level 7)**
Higher Technical College of Architecture
Seville, Spain

PROFESSIONAL EXPERIENCE

1997-2011 **Freelancer architect, Spain**
Since starting my practice in 1997 I have worked in a variety of roles, realizing projects in urban development, construction, and regeneration, including acting as project manager. I have worked in all aspects of the projects, both individually and in collaboration with other architects.

2012-April 2020 **Associate Architect**
Laguada.Low+Tanamachi, Tokyo, Japan
Focused on the design of car dealerships for Bentley, Mercedes Benz and Rolls Royce all along Japan, but also participating in the process of educational, commercial and urban development projects that allow me to have experience in a larger sort of fields.

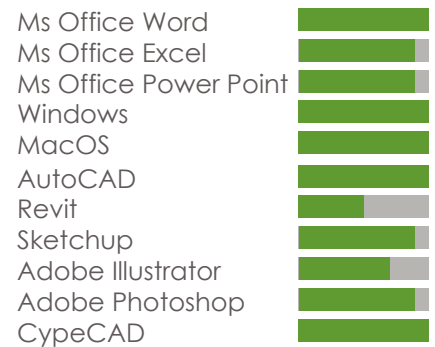

Sept 2020-May 2021 **Senior Project Architect**
Science Kozo Inc., Tokyo, Japan
I was in charge of container house design projects that allowed me to gain experience in housing regulation and small houses design.

June 2022-present **Senior Project Architect**
Axision Architects Design +, Yokohama, Japan
Being in charge of the design of the renovation from a detached house to an entire condominium, including interior and exterior walls.
